Matrox® QuadHead2Go™ Appliances

How to mount QuadHead2Go appliances

QuadHead2Go appliances were built with flexibility in mind. Matrox offers two accessories that allow for easy mounting of the QuadHead2Go either into a standard 19-inch rack, or to a VESA compatible mount.

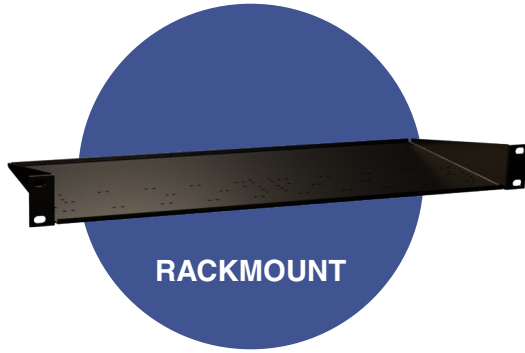

RACKMOUNT

- Securely fasten the QuadHead2Go appliance to the mounting shelf
- Stack 3 QuadHead2Go's vertically in a 19-inch rack and drive up to 12 displays
- Fit 10 QuadHead2Go appliances vertically in a 19-inch rack and drive up to 40 displays

VESA BRACKET

- Conveniently mount the QuadHead2Go to your display with the VESA bracket using the holes on the base and side of the appliance
- 1 QuadHead2Go appliance with a single VESA bracket can drive 4 displays
