# ANY SOURCE. ANY SIZE. ANY CONFIGURATION.

Matrox QuadHead2Go™ Series multi-monitor controllers for dynamic, next-generation video walls

Media Player

QuadHead2Go Series can power any video wall configuration of any possible dimension, from any video source – including a vast range of industrial signage players, NUCs, and other SFF systems.

QuadHead2Go

Capable of driving four displays from one signal, these controller appliances and PCIe cards provide complete video wall scalability and flexibility.

Easy to Deploy Video Walls

Design large-scale and modern artistic video wall layouts with free rein.
